

# AirLINE SP

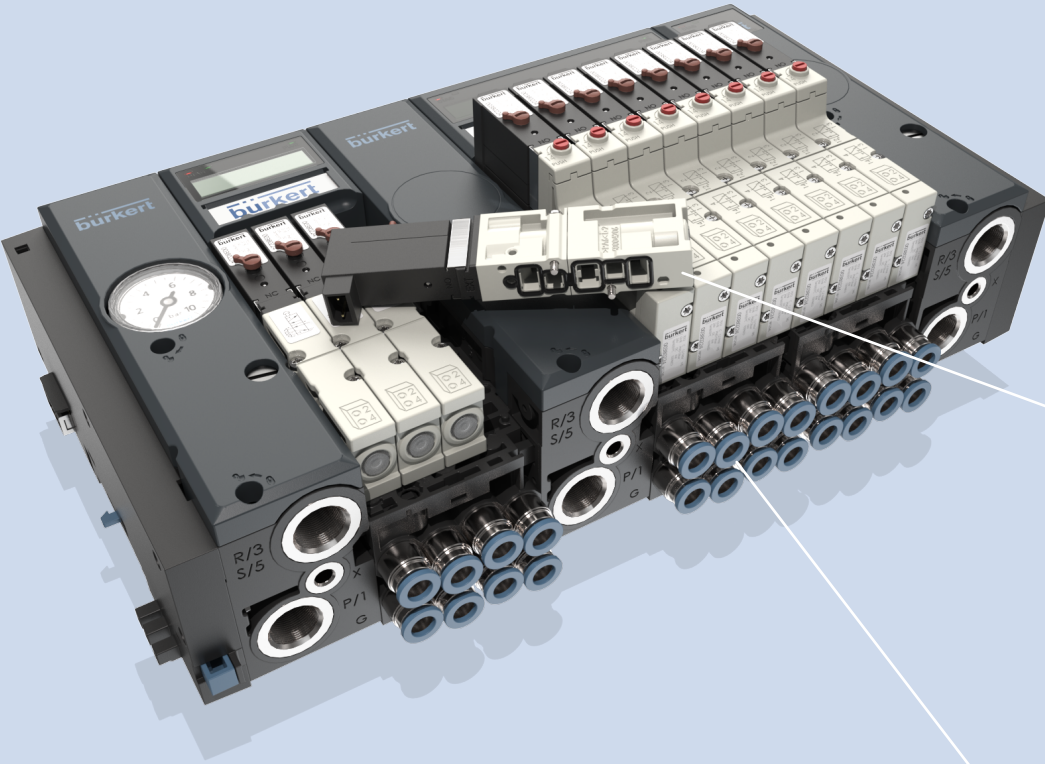

Type 8647 valve island – ready for the future!

Revision 1

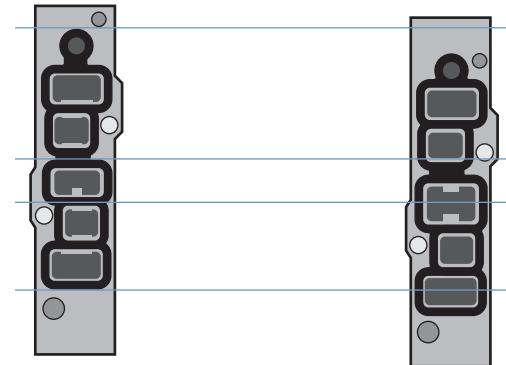

Revision 2

Type label

Single valves  
(Changed connection diagram due to different size of the channels)

Connections

**Project planning:** software unchanged

**Dimensions:** unchanged (connections 5 mm longer)

**Spare parts/compatibility:** due to further developments in pneumatics and consistent project planning, there is no backward compatibility on the pneumatic side.
